

How to win Powerball ? How to win Mega Millions ?

The best way is to use our system !

Our system increases your chances of winning Mega Millions or Powerball " It's not rocket science, but a Great Idea! "

Finding the winning numbers for **Powerball or Mega Millions** is a problem that every player encounters.

Regardless of the lottery, finding the winning numbers is a very difficult undertaking, and chance is the sole master of the game! Just like anyone, you would like to find a technique, a method or a system to win the lotto!?

We have developed an excellent system !

It can be summed up in the following sentence : **“Knowing the right combination ahead of time is impossible. But getting UP TO TWICE MORE CHANCE of picking the right numbers IS POSSIBLE!”**

Actually, **luck is unpredictable and giving you the right numbers is impossible (and would be cheating). But other aspects of the game do NOT depend on luck:** the amount of numbers per grid, the number of numbers to pick etc. It's these aspects that we took into consideration when developing our system! **Conclusion: With THIS SYSTEM, you have as much AS DOUBLE MORE CHANCE of finding the winning numbers!!!**

It's not rocket science, but a Great Idea !

This System was originally designed for Euro Millions, and we've tailored it for each main national lottery, depending on the number of numbers per grid and to play. The main concept of the system is demonstrated, using Powerball as exemple.

Winning the Jackpot will remain the exception, but the goal is elsewhere. Initially, it is the winnings with 4 or 5 numbers that are our Target ! A Win with 5 numbers for Powerball or Mega Millions is already \$ 1 Million... !

The Jackpot would be a bonus!

Reminder: 99% of players never win more than 3 numbers and this throughout their lifetime !

Testimonies (Euro Millions)

First, our “Star Player” who won twice with 4 good numbers in 6 months

“07/15/2013 For the second time I have just won € 1600.30 in the lottery this Saturday, not beating my first record of € 1884.60 ! But I think that the jackpot is coming, and soon !”

Amina’s testimony: **OUR FIRST WINNER IN 2014!** Loto 01/13/2014

“Good evening! I won 1265,40 Euros tonight when playing the loto! I want to thank you for that! I owe it to your system that I bought in December. I used the series #1. My numbers are 3, 29, 33, 47 . Thanks again, I am well pleased!”

Jerome's testimony :

“Happy New Year to everyone, after having won 50 Euros in December 2012, you have helped me win € 1306.40 Wednesday 02/2013, luck is not only for everyone else, thanks again.”

Sylvie’s Testimony

Hello, Sylvie here, and I wanted to let you know that I got 4 lottery numbers this Monday June 10th which won me 1,704 Euros thanks to your system by playing with 10 Euros, and I wanted to thank you.

Jean-Luc's testimony

“Hello ! A quick note to say that I won the lottery on Saturday 19/01/2013. Once with 4 number and another time with 3 number using the System 25 series 5. It's a shame that I couldn't have all 5. The numbers 9/22/23/42/45. Lucky number 8. In the game I had 9/22/23 and in the other I had 22/23/42/45. Shame because I didn't have 5 winning with the lucky number, and no winning at number 5 either. Overall gain € 1884.10 Thanks !”

How does the “System” work

The Idea that we have found is simple, we designed it for Powerball and Mega Millions! The concept of our system is the same for all lotteries. Below is a demonstration of how the system works, using Powerball as exemple.

With The System : *It's impossible to predict the Winning Numbers (that's Luck). We said to ourselves, if we could choose 5 numbers, not only from the 59 usual numbers, but also from a “special set” of only 29 or 30 numbers, then **automatically**, we will have as much AS TWICE more chance of picking the right numbers !*

If you choose 5 numbers out of 29 numbers rather than 59, you have 2 TIMES MORE CHANCE of picking the Winning Numbers! It's hard to believe but it works!!!

The real advantage is based on the fact that our system is NOT based on luck. Any mathematician, regardless of where he comes from or even his era will attest to our system. “Choosing 5 numbers from 29 is as much AS TWICE MORE CHANCE than choosing from 59.” And that's sure of being valuable for every draw.

This Diagram explains it better, see for yourself:

The fewer boxes there are to tick, the more chances we have of ticking the winning numbers.

It's mathematics !

Of course you will play on the regular lottery play-slips. Our grids with 29 boxes are actually one series of 29 chosen numbers.

What does one of our series look like ?

The normal series of the Powerball starts like this **1-2-3-4-5-6-7-8-9**
etc

One series from The System has 29/30 numbers : it looks like this **3-4-5-7-9-10-12** etc...

The ADVANTAGE that you will have with this system IS CONSIDERABLE! Your chances of picking the right numbers are DRAMATICALLY INCREASED! You will not bet like a normal player with this System! And that's a considerable advantage!

For The System to be efficient, one series of 29 numbers must contain at least 4 winning numbers, and ideally 5 winning numbers. The System regularly contains 4 or 5 Winning Numbers! That's Exceedingly Excellent !

With 4 or 5 winning numbers out of 29 numbers, you will have exactly DOUBLE MORE CHANCE of having checked the right numbers. Simply put it's an enormous advantage, especially if there is \$100 Millions or more to gain! *(You will find all our results from the drawings below, to attest to this)*

Being able to have as much AS TWICE MORE CHANCE of winning a Jackpot at 50 or 100 Millions of Dollars is one big advantage, right? Thanks to our experience with Euro Million, we've created special series of numbers for Powerball and Mega Millions, which gives Excellent Results! (see below for more details)

What can you do with \$100 Millions ? Dream a bit with this win...

Emily's testimony !

"I am writing you to say that after using your system for only 15 days, I have already won twice 3 numbers ! I really have a lot better luck, I am expecting a lot more and I believe in it. Thank-you and happy New Year."

And, Jerome won more after his taking of € 1,306 !

“Good evening It's just to thank you for your services.....I am really happy to have discovered you site. Best luck for the future! I want to thank-you again in hopes that this continues.”

Is one series of 29 numbers enough ?

With the system, we have 10 valid series which regularly obtain at least 4 or 5 winning numbers in a single series.

Actually there are thousands of ways to make a series of 29 numbers, but we only had to develop a small number (10) which are very regular and have at least 4 or 5 good numbers in them. **All the difficulty is there and it's the choice of number from our series that makes it useful.** Making a list of 29 numbers is very easy, but the fact that they REGULARLY are made up of Winning Numbers is another challenge !

The System that you will receive is composed of 2 modules of 10 series of numbers, one module for the Powerball and one for the Mega millions. It's the optimal research of these numbers by the series which makes this system so worthwhile. You don't need anything else, and you will choose, for yourself, your numbers from our series to make your grids.

Our system does not give you the numbers to play, but can as much as double up your chances of finding them ! That is a good goal to achieve !

How to Play Using The System

The system is made up of 10 series of 29 numbers

Example of a series

2-5-6-9-10-13-15-19-20-23-26-27-28-30-33-35-38-39-41-43-45-48-49-52-54-55-56-58-59

You get optimum results by playing one grid for each of our ten series. But, you can do it differently if you would like.

This is how to play and it's very simple.

You use the 10 series of numbers and regular lottery play-slips, or online at the National Lottery website

In the first series, you choose 5 numbers, randomly !

2-5-6-9-10-13-15-19-20-23-26-27-28-30-33-35-38-39-41-43-45-48-49-52-54-55-56-58-59

And you use *your 5 numbers*, for example **2-10-38-48-55**, on the official lottery ticket. Remember to pick the lucky numbers or stars, which are not supplied with this system. You will notice that it's easier to tick the right numbers because you are only choosing from 29 numbers instead of 59.

The combination mentioned above, has led to a return of \$ 1,000,000 to the bettors who used it. (This is without counting the lucky number, which can mean that you win the jackpot) ;-)

Then, you do the same for all 10 series and that's all!

Our system does the work and, according to the draw, you will have up to TWICE MORE CHANCE of ticking the right numbers! And even if you do it randomly.

It is this paradox that is surprising : it's impossible to predict the right 5 numbers because chance cannot be predicted, but we still have to choose 5 ! **So perhaps still do it randomly, but with MORE LUCK !**

Testimonies

Jerome

“ Good evening Dominique

I'm inviting myself into your conversation regarding your comment. I have been using the System 25 lotto and Euro Millions for 8 months

Since then I have won 12 times with 2 NUMBERS and 4 TIMES WITH 3 NUMBERS and once with 4 NUMBERS.

The system really works ! ”

Jean Luc

"Hello, just a quick note to let you know that I won the Saturday lottery 01/19/2013, once with 4 numbers and once with 3 numbers with series 5 from the system

Total winnings €1884.10 thanks !"

The System has an exceptionally good record of delivering positive results! (Take a look at the draws below)

When playing a grid at \$1 or \$2 per series, with a total of 10 grids at \$1 or \$2 each, you are going to increase your chances by up to double of picking the right numbers in at least one series, when using the system! *This is simultaneously an inconvenience because you have to bet more money, but you have more chances to win. Because even for a small win with 4 numbers it is worth it! So for several Millions of Dollars it speaks for itself! (To be precise, Playing 10 normal grids is NOT the same as playing 10 grids with The System : in the normal game you always have to choose amongst 59 numbers, and 10 times in a row !)*

PROOF of Effectiveness of The “System”

Look at the results from the drawings, The System always contains, with exception, 4 or 5 winning numbers in the series! It means that this system works, and that you will have ticked at least one of the grids with an enormous advantage and, often, doubled your luck!

Please note: The lucky number or star numbers are not supplied

One of the series has at least ...
